

MAY-TECH
PLASTİK MAKİNA
SANAYİ TİCARET LTD. ŞTİ.

High Quality Plastic Machine

This machine can produce ABA type three-layer films, A, B type films. The main purpose of this machine is to use 70-85% recycled material or calcium carbonate filled polymer (Calcite) to produce films of products such as grocery bags and garbage bags with B extrusion high speed, high product output and at the same time greatly reducing the raw material cost.
